

Lame Fonts

Making the web uglier

Lame Fonts showcases the ugly ducklings of Google Fonts. Built around the [Google Fonts API](#), Lame Fonts fetches and presents both the least trending and the least popular typefaces.

Hi Melody

<https://fonts.google.com/specimen/Hi+Melody>

Still, the moon was high and
there was something moist
and sad in the air that
seemed to be saying, Well,
it's not early.

George Saunders, *Home*

Headland One

<https://fonts.google.com/specimen/Headland+One>

You look like
you've been in a
fight with some
squirrels or
something.

Donald Antrim, *Another Manhattan*
