

# Projects

---

## Lame Fonts

*Lame Fonts* utilizes the [Google Fonts API](#) to dynamically generate a list of the least popular and least trendy typefaces.

---

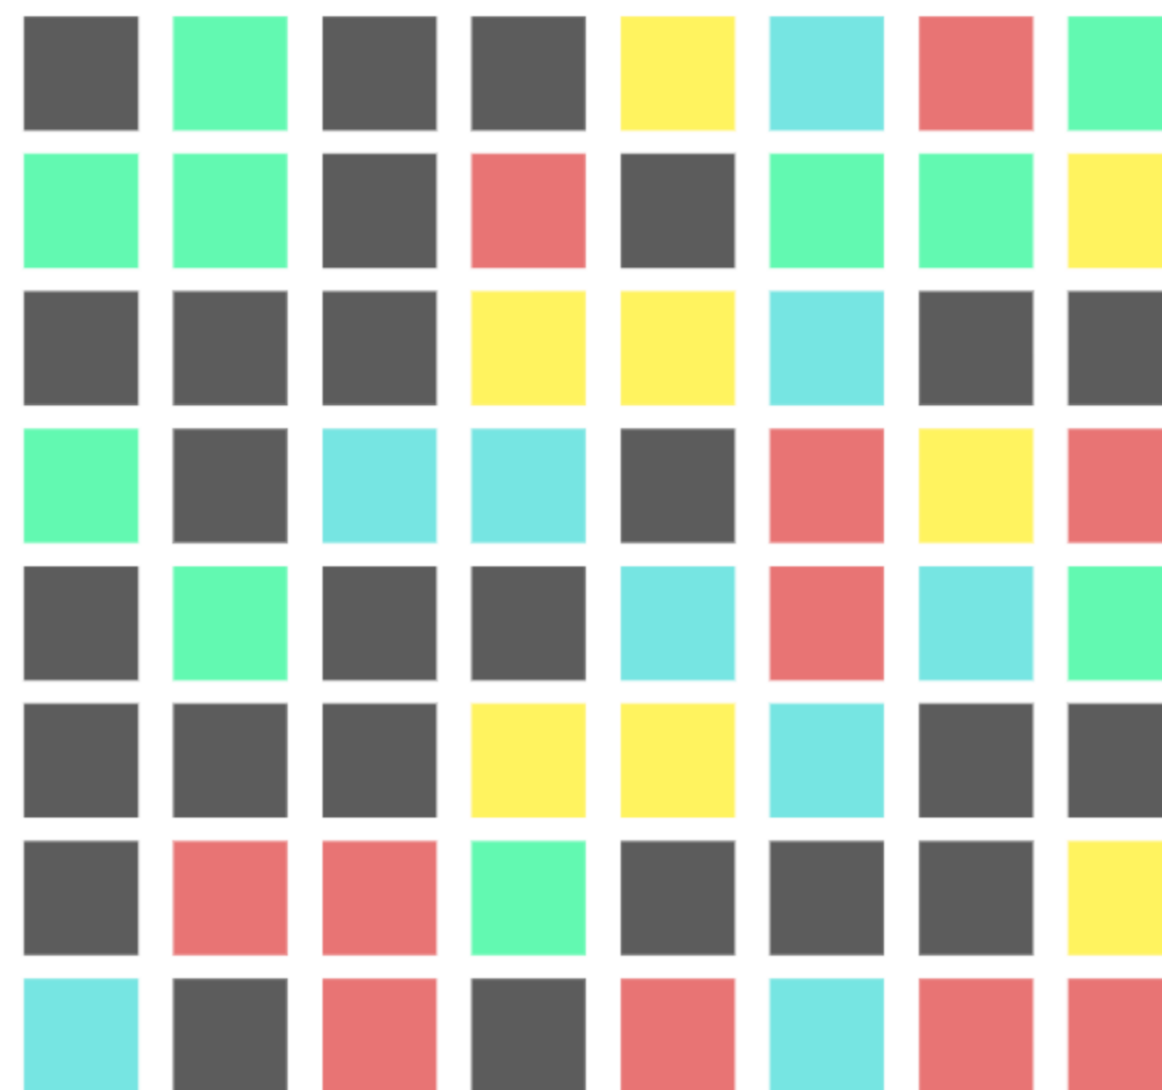

## Wheel of Misfortune

*Alternative Form Entry*

*Wheel of Misfortune* is an experiment in intentionally terrible user interaction. An alternative to keyboard text entry, *Wheel of Misfortune* requires users to try their luck at a spinning wheel

## Splash Page

My new *Splash Page* is a fully responsive Canvas animation accompanied by text that will be displayed on future iterations of [CurtisMann.org](#).

## CurtisMann.org (1.0)

## Hot Laps

*Hot Laps* is a responsive infographic-esque page. 14 weeks of running training are broken down into various statistics—some more interesting than others.
